

GOKUL NATH S

Full-Stack Web Developer | Python Backend Developer

Salem, Tamil Nadu | +91 9342486977 | gokulsaravanan034@gmail.com | LinkedIn: Gokul Nath S | GitHub: realgokulnath-dev

SUMMARY

Motivated Information Technology student with hands-on experience in full-stack web development using React.js, Node.js, Express.js, and MongoDB, with additional backend development skills in Python, FastAPI, PostgreSQL, and SQLAlchemy. Experienced in building responsive web applications, RESTful APIs, authentication systems, and database-driven solutions. Strong problem-solving skills with a focus on scalable software development and continuous learning.

EDUCATION

B.Tech – Information Technology | Adithya Institute of Technology | 2023 – 2027 (Pursuing)

Current CGPA: 7.61

Higher Secondary Education (HSC) | Saraswathi Matric Higher Secondary School, Salem | 79.33%

SKILLS

Programming Languages: Python, JavaScript, C, C++

Frontend: HTML5, CSS3, Tailwind CSS, React.js

Backend: FastAPI, Node.js, Express.js

Databases: MongoDB, PostgreSQL, SQLAlchemy

API & Security: RESTful APIs, JWT Authentication, Postman

Tools & Technologies: Git, GitHub, VS Code, Redis, Celery

Core Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), MVC Architecture, Authentication & Authorization

PROJECTS

College E-Voting System for B.Tech IT | React, Tailwind CSS, FastAPI, PostgreSQL

- Developed a college-level e-voting system for B.Tech IT association elections, providing a structured digital voting workflow.
- Implemented elections for President, Secretary, Treasurer and other association positions across 2nd Year, 3rd Year and Final Year students.
- Handled eligible voter data using email and registration numbers imported from Excel as CSV data.
- Implemented voting validation so each eligible student can vote only once.

Maize Trading Management Application – MaizeKing | React.js, Node.js, Express.js, MongoDB

- Developed a business management platform for maize trading operations.
- Implemented bill import/export and e-bill management functionality.
- Built interactive dashboards for transaction monitoring and business analytics.
- Centralized business records to improve digital record management.

E-Commerce Bag Shop Website | React.js, Node.js, Express.js, MongoDB, HTML, CSS

- Developed a full-stack e-commerce application for online bag sales.
- Implemented user authentication, shopping cart, wishlist, and order management features.
- Designed responsive user interfaces and integrated RESTful APIs.
- Managed product and user data using MongoDB.

Smart Expense Tracker | React.js, Node.js, Express.js, MongoDB

- Developed an expense tracking application for managing daily income and expenses.
- Implemented create, edit, and delete functionality for financial transactions.
- Displayed income, expenses, available balance, and spending insights using charts.
- Enabled users to monitor spending habits and manage budgets effectively.

INTERNSHIP EXPERIENCE

Web Development Intern – CORIZO EDUTECH PROJECT | Oct 2025 – Nov 2025

- Developed an e-commerce website using HTML, CSS, and JavaScript.
- Implemented login, user account, add-to-cart, wishlist, order management, and payment flow interfaces.
- Built frontend functionality for product selection and purchase workflows.

Frontend Development Intern – COGNIFYZ TECHNOLOGIES | May 2026 – Jun 2026

- Developed CareerConnect, a responsive job portal frontend using React.js, HTML, and CSS.
- Designed job listing, application tracking, and company profile modules.
- Created reusable React components to improve maintainability and user experience.
- Integrated frontend interfaces with backend APIs.

Python Full-Stack Development Training – Tech Vedhu | June 2026 – July 2026

- Completed Python Full-Stack Development training covering Python programming, backend development, API development and database integration.
- Learned and applied Python, FastAPI, PostgreSQL, and SQLAlchemy through hands-on training.

ACHIEVEMENT

- Finalist – My Bharat Budget Quest 2026.
- Demonstrated analytical and communication skills through competitive quiz and essay rounds.
- Participated in national-level technical events and conferences.

PUBLICATION

Next Generation Computing Trends and Innovation – Published research work focusing on emerging technologies and innovations in modern computing systems.

CERTIFICATES

- International Conference on Advanced Innovation in Technology – Arifa Institute of Technology
- Diploma in Computer Application (DCA) – Computer Software College (CSC), C and C++
- Ebox – C Programming Language, Problem Solving and Python Programming
- International Conference on Interactive Educational Technology and Storytelling for Children – Kamaraj College of Technology, Virudhunagar
